

A-Round

What to do:

1. Everyone sings line 1 in unison or at the octave. The tempo? *Slow*.
2. Proceed through lines 2-12 in order, but at your own pace.
3. If you find yourself in sync with another, *unsync* yourself.
4. Enunciate the words clearly, but not loudly.
5. If you finish ahead of everyone else, repeat the last six notes of line 12 until all singers have caught up. Then everyone repeats those last six notes in unison or at the octave.
6. The first one finished doesn't necessarily win.
